

Arran Community Land Initiative – 5 Year Outcome Plan

The following three themes (written as more wordy outcomes) and 2015 indicators were submitted and accepted by the Scottish Land Fund. To plan for a progression of the organisation, we have kept the three broad themes and proposed manageable activities which build upon the activities for the following years.

	2015	2016	2017	2018	2019
1. Income generating projects and activities which strengthen the local economy	<ol style="list-style-type: none"> 1. Land acquisition completed 2. local trades people employed on -site 3. grazing rentals (horses) 	<ol style="list-style-type: none"> 1. Hub building on site 2. local trades people and skilled experts people employed on -site 3. grazing rentals of cattle and horses 	<ol style="list-style-type: none"> 1. Small scale renewable scheme installed 2. Employ local people on contracts of more than one year 3. Prepare fields for crops 	<ol style="list-style-type: none"> 1. Hub building utilised by other (paying) groups 2. employ local people including apprentices 3. Grow Crops 	<ol style="list-style-type: none"> 1. Create fishing pond 2. employ local people including apprentices 3. Diversify crops
2. Educational, training and volunteering opportunities	<ol style="list-style-type: none"> 1. volunteer footpath creation 2. community orchard established 3. opportunities for social inclusion projects 	<ol style="list-style-type: none"> 1. Training courses utilising allotments and orchard 2. create orienteering course 3. Offer HNC Rural Skills with Argyll College 	<ol style="list-style-type: none"> 1. Further footpath creation 2. More training courses in Land based skills 3. Offer HNC Rural Skills and Equido course with Argyll College 	<ol style="list-style-type: none"> 1. Create mountain bike tracks across the site 2. start an apprenticeship scheme 3. Offer HNC Rural Skills as a Training Provider ourselves 	<ol style="list-style-type: none"> 1. Create mountain bike skills area 2. develop apprenticeship scheme 3. Offer HNC Rural Skills and other courses as a Training Provider ourselves

<p>3. Environmental and health benefits</p>	<ol style="list-style-type: none"> 1. Allotment area developed 2. feasibility of renewable energy explored 3. conservation work identified 	<ol style="list-style-type: none"> 1. 'showcase' allotment built and planted 2. school groups involved in conservation activities 3. conservation area planned and prepared 	<ol style="list-style-type: none"> 1. Large scale poly tunnel installation 2. Small scale renewable scheme installed 3. pond creation and one hide built 	<ol style="list-style-type: none"> 1. 'showcase' allotment developed 2. Develop school input in conservation 3. additional trails and hides added to conservation area 	<ol style="list-style-type: none"> 1. Fruit from orchard utilised 2. Health project 3. conservation area enhanced with sculpture trail
